

See what one of the largest US Restaurant Chain is saying about QualMap

QUALMAP

SITUATION:

- **Fastidious Supplier Management** with :
 - **1.8M** data points handled manually
 - **24-48h** to identify issues through complaints or routine tests
 - **4 - 5 days** for root cause analysis
 - **Thousands of emails** to handle interactions with suppliers

“
With QualMap, we can form decisions from opinion to facts.
Quality management Director”

CHALLENGES:

- Supplier Quality **management team** :
 - Inundated with data, **not information**
 - **Reactive** to complaints and product issues, **not proactive**
 - **Endless & inefficient investigations**, impacting **satisfaction of franchisees & customers**

“
The amount of time it took me to gather data and consolidate it often prevented me from doing the analysis. With QualMap, it takes me now 30s.
Quality management Director”

OUR SOLUTION:

- Visualize suppliers Quality KPIs through **consolidated dashboards**
- Manage product performance with **statistical data trending**
- Monitor suppliers' adherence to requirements with **activity tracking**

BENEFITS:

FOOD SAFETY

24h to **identify** where & when Quality issues began and **verify** they were corrected

PRODUCTIVITY

10,000+ data **points** with statistical capability was shared with R&D in **less than 5 minutes**

SAVINGS

30 min and **80% reduction of time** spent in generating commodity reports
